**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 17-31 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach of fairly suggest:

An apparatus for processing a substrate, comprising:

- a) an indexer portion comprising

a downside structure comprising a transfer robot for transferring a substrate from/to a carrier capable to hold a plurality of substrates, and

an upside structure defined above said downside structure and comprising an inspection section operable to inspect said substrate; and
- b) a processing portion comprising

an arrangement of processing units for applying a series of processing to said substrate transferred from said transfer robot, and

a transport robot for transporting said substrate between said arrangement of processing units, wherein

a plane area of said upside structure projected onto a horizontal plane is included in a plane area of said downside structure projected onto said horizontal plane, and wherein

said upside structure is provided in a location out of range in which said transfer robot moves for transferring substrates between said carrier and said processing portion; and

said transfer robot comprises: a transfer arm for holding said substrate, and

a telescopic multistage structure on which said transfer arm is provided, said telescopic multistage structure being operable to expand and contract and **whereby said transfer arm is capable of accessing said carrier and said inspection station.**

*In the closest piece of prior art (Akimoto), the transfer arm located in the downside structure is not capable of accessing an inspection station in the upside section of a processing*

• Art Unit: 1763

***apparatus constructed as described above. Additionally, no other piece of prior art suggested this feature.***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Van Doren et al. is cited because it teaches the advantages of using a telescoping transfer robot.
